Nginx access log rotate

- Log raoted policy enforcement

Log raoted policy enforcement

Final logrotate config for `access.json`

Create / edit:

`sudo nano /etc/logrotate.d/nginx-access-json`

Paste **exactly this**:

```
/var/log/nginx/access.json {
    daily
    rotate 30
    maxsize 30G
    missingok
    notifempty
    compress
    delaycompress
    dateext
    dateformat -%Y%m%d
    copytruncate
    create 0640 www-data adm
}
```

? What this guarantees

Requirement	Covered
Rotate daily	✅
Keep 30 days	✅ `rotate 30`
Rotate early if huge	✅ `maxsize 30G`
No nginx reload	✅ `copytruncate`
Promtail-safe	✅
Disk protected	✅
JSON intact	✅

? Test immediately (no waiting)

```
sudo logrotate -d /etc/logrotate.d/nginx-access-json
sudo logrotate -f /etc/logrotate.d/nginx-access-json
```
